

Merger Control

Competition authorities are increasingly rigorous and sophisticated in their review of transactions. This means competition law advice can be critical to your ability to successfully close your merger, acquisition, or joint venture transaction.

Our team of lawyers in 17 different jurisdictions has unparalleled scope to handle truly global transactions. We have a deep understanding of merger control laws in the key jurisdictions such as the United States, Europe, and China. And we have excellent contacts with local firms in countries where we do not have our own team. Bringing this reach and knowledge together, we work in partnership with you to coordinate multijurisdictional merger clearances around the world — from negotiating the deal through the regulatory merger clearance process, to litigation, if necessary. Trusted to help you get it right.
