

2016

Franck Alain Behiblo, Managing Director, Head of Corporate Development

As a Managing Director at Quantum Global, Franck heads the Group's Corporate Development efforts targeting their inroads into Sub-Saharan Africa. Franck started his career at UBS's Fixed Income Department focusing on emerging markets, he subsequently joined UBS's Economic Research team specializing in France, Italy and Spain. After a stint at HEC Lausanne to complete an advanced degree in Financial Engineering (FAME), Franck joined EGL, a hard trading Commodities House where he worked in the Research department and joined the Trading Desk later as a commodity trader. In 2008, Franck returned to UBS to lead the bank's overall effort and strategy towards Africa, instituting a number of initiatives which included the successful UBS Africa Forum 2010 and 2012, which culminated with the establishment of UBS's footprint in Nigeria in 2014.

Franck holds an Msc in Economics from South-eastern University of London.
