

## Patents

Known as "the first and last word in patent litigation" (*IAM Patent 1000, 2015*), there is little our courtroom lawyers across the Americas, Europe, and Asia haven't seen.

From U.S. patent reform to the European Unified Patent Court. The world is changing. Whether it's patent expiry or patent trolls that are causing concern, our team of litigators will vigorously defend your position.

We don't only defend, we help you create and grow. With a team of patent prosecution and licensing professionals, we are with you from initial idea to global roll out. Whether you operate in a traditional industry such as life sciences, telecommunications, automotive, or energy, or are part of a new generation operating at the intersection of these industries, we are the team for you.
